

CrowdStrike  
Cybersecurity  
Conference | 10.2020

Register Now →

Think our annual cybersecurity conference will be just another online meeting? THINK AGAIN!

**Fal.Con 2020** goes beyond today's typical home-office-based conference — it's a broadcast-quality, immersive special event packed with insights from industry powerhouses, interactive workshops, in-depth tutorials, customer case studies and much more.

Did we mention that it's free this year? Now more than ever, it's an important time for our global community to come together to share battle-tested lessons from the trenches and hear firsthand from CrowdStrike experts on the front lines in our ongoing fight to **stop breaches**.

REGISTER NOW
